

## **Cambridge Technical Level 3 Certificate in Sport**

The course offers our students the opportunity to study sports based practical skills and knowledge which will prepare them further study or the workplace. Designed in collaboration with experts spanning the breadth of the sports sector, the Cambridge Technical in Sport focuses on the skills, knowledge and understanding that today's universities and employers demand.

The Cambridge Technical Level 3 Certificate in Sport has been designed to provide students with an excellent alternative to a one A Level equivalent BTEC Sport.

With a wide range of centre assessed units with practical-based assessment opportunities, the course offers our students the opportunity learn through a practical and theory study programme. Units are graded as Pass, Merit or Distinction and UCAS points as per A-Levels are available. This qualification is recognised by universities and covers a wide range of topics from anatomy and physiology of the human body, to sports psychology, to sports development.
