

Document Retention Policy

SUTTON VALENCE SCHOOL

This Policy applies to Sutton Valence School (including as the context requires, the Little Lambs Nursery, the Pre-Preparatory School, Preparatory School and Senior School).

1. Introduction

- 1.1. The main aim of this policy is to enable Sutton Valence School to manage its records effectively and in compliance with data protection and other regulations. As an organisation the School collects, holds, stores and creates significant amounts of data and information and this policy provides a framework of retention and disposal of categories of information and documents.
- 1.2. Sutton Valence School is committed to the principles of data protection including the principle that information is only to be retained for as long as necessary for the purpose concerned.
- 1.3. The table in Appendix One sets out the main categories of information that is held by the School, the length of time that the School intends to hold them, and the reason for this.
- 1.4. For information, the appendix also sets out the legal requirements for certain categories of document. Where a decision is made to keep information longer than the statutory requirement, this has been explained in the table at Section 3.
- 1.5. Section four of this policy sets out the destruction procedure for documents at the end of their retention period. The Data Compliance Officer shall be responsible for ensuring that this is carried out appropriately, and any questions regarding this policy should be referred to the post holder.
- 1.6. If a document or piece of information is reaching the end of its stated retention period, but a member of staff is of the view that it should be kept longer, please refer to the Data Compliance Officer, who will make a decision as to whether it should be kept, for how long, and note the new time limit and reasons for extension.

2. The Independent Inquiry into Child Sex Abuse (IICSA)

- 2.1. This policy should be read in conjunction with the guidance provided by the IICSA (<https://www.iicsa.org.uk/document/guidance-note-retention-instructions-and-dataprotection-requirements>) which supersedes any guidance contained in this document.

3. Document Retention Period

The policy contains an appendix setting out the category and data retention period.

4. Deletion of Documents

- 4.1. When a document is at the end of its retention period, it should be dealt with in accordance with this policy. Where the retention period is based on dates of birth, the action will be taken at the end of the academic year in which the age is reached.

Confidential waste

- 4.2. This should be taken (not sent) to the School Office to be shredded or destroyed in an appropriate manner;
- 4.3. Anything that contains personal information should be treated as confidential;
- 4.4. Where deleting electronically, please refer to the Data Compliance Officer to ensure that this is carried out effectively.

Other documentation

- 4.5. Other documentation can be deleted or placed in recycling bins where appropriate.

Automatic deletion

- 4.6. Certain information will be automatically archived by the computer systems, details of which are set out below. Should you want to retrieve any information, or prevent this happening in a particular circumstance, please contact the Data Compliance Officer.

Individual responsibility

- 4.7. Much of the retention and deletion of documents will be automatic, but when faced with a decision about an individual document, staff should ask themselves the following:
 - 4.7.1. Has the information come to the end of its useful life?
 - 4.7.2. Is there a legal requirement to keep this information or document for a set period? (Refer to Appendix One for more information);
 - 4.7.3. Would the information be likely to be needed in the case of any legal proceedings? In particular, is it potentially relevant to an historic child abuse enquiry? (Is the information contentious, does it relate to an incident that could potentially give rise to proceedings?);
 - 4.7.4. Would the document be useful for the organisation as a precedent, learning document, or for performance management processes?
 - 4.7.5. Is the document of historic or statistical significance?
- 4.8. If the decision is made to keep the document, this should be referred to the Data Compliance Officer and reasons given.
